

For Caterpillar CAT320c Hydraulic Motors-M5X130 Steel Swing Motor for Truck Mounted Excavator

Our Product Introduction

for more products please visit us on hydraulicmachineryparts.com

Basic Information

- Place of Origin: China
- Brand Name: HALCYON
- Model Number: M5X130
- Minimum Order Quantity: 1 piece
- Price: Negotiable
- Packaging Details: Wooden Box+Pallet
- Delivery Time: In Stock: 1-3 day(s); Out of Stock: Customization time depend on specific circumstances
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 900 pieces per month

Product Specification

- Warranty: 6month
- Application: Excavator
- Color: Printed
- Part Name: Swing Motor
- After-sales Service Provided: Online Support
- Packing: Wooden Box

Product Description

Product Description

M5X130 Hydraulic Excavator Swing Motor for CAT320c Truck-mounted Excavator Parts

HALCYON

Product Description

M5X130 Excavator Swing Motor for CAT320c

Product Features

High starting torque efficiency: It can quickly reach the required torque during startup, reducing startup time and energy loss. This enables more efficient driving of equipment operation, making it suitable for working scenarios where equipment such as excavators need frequent start-stop operations.

Compact structure: Adopting a compact design, it occupies small space and is easy to install inside mechanical equipment with limited space, such as the slewing mechanism of excavators. While saving installation space, it also facilitates the overall layout design of the equipment.

High overall efficiency: It has high energy conversion efficiency, which can efficiently convert input hydraulic energy into mechanical energy, reducing energy loss and system heat generation. This improves the economy and working stability of the hydraulic system and can effectively reduce the operating cost of the equipment.

Dual slewing mechanism: Equipped with a dual slewing mechanism, it can achieve relatively flexible slewing actions, meeting the operational needs of equipment under different working conditions.

Adjustable displacement: Its displacement can be adjusted within a certain range. The output speed is determined by the pump flow and motor displacement, and the torque can increase with the pressure difference between high and low pressure sides and the increase of displacement. It can flexibly adjust output characteristics according to actual working load conditions.

Looking for more?

We can offer perfect interchangeable replacements of many world's renowned brands including Rexroth, Eaton, Parkers, Kawasaki, Tokimec, Sauer-danfoss, Komatsu and so on.

Company Profile

FACTORY

GUANGZHOU HALCYON-HYDRAULIC CO. LTD

ABOUT US

Guangzhou Halcyon-Hydraulic Co. Ltd was founded in 2010 and is located in Guangzhou National High-tech Development Zone. Our main business is to develop and manufacture high pressure piston pumps, motors, spare parts, integrated products of hydraulic system, and equipments repairing and remanufacturing. The company has passed ISO9001 quality certification, and has been awarded as "Contract and Trust worthy Enterprise" and "Guangdong High-tech Enterprise".

OUR ADVANTAGES

- **Expertise in R&D and Design:** Over 20 years of experience in the research, development, and design of high-pressure piston pumps and motors.
- **Manufacturing Excellence:** More than 13 years in factory manufacturing, contributing to high standards and quality production.
- **Standard Development:** Active participation in the development of the Chinese national standard for hydraulic pumps.
- **Patent Portfolio:** Possession of 19 utility model patents and 5 invention patents, showcasing our innovative capabilities.
- **Cost-Effective Production:** Our real factory setup ensures cost-effective production and competitive pricing for high-quality products.
- **Customization and ODM Services:** Strong capabilities in offering customized services and excellent Original Design Manufacturing (ODM) to meet various client needs.
- **Industry Collaboration:** Extensive experience in manufacturing specialized hydraulic pumps and motors for major machinery manufacturers like XCMG

FAQ

Q1. Why choose us?

A. More than 20 years of experience in hydraulic parts design and 14 years of experience in manufacturing branded quality of piston pumps and motors. As a reputed factory supplier, We have many modern production machines and testing equipment, as well as a strict and renowned quality management system. Welcome ODM/OEM inquiry with high quality demand.

Q2. Can I customize the product?

A. Absolutely. Actually customizing service according to drawing or request, is the most advantage and big difference between HALCYON and common suppliers. We have excellent technical precipitation and mature production process in hydraulic industry.

Q3. Can I have free samples?

A. Usually no, but negotiable according to different products and orders.

Q4. What's the delivery time?

A. 10-60 days after payment, according to different products and orders.

Q5. How to order?

A. Inquiry → Quotation → Negotiation → Samples → PO/PI → Down payment → Mass production

→Quality inspection→ Book Space →Balance/Delivery → Further.
