

High-Quality M5X130 Excavator Swing Motor Assy with 2000 RPM and 2000psi Pressure Rating

Our Product Introduction

for more products please visit us on hydraulicmachineryparts.com

Basic Information

- Place of Origin: China
- Minimum Order Quantity: 1
- Price: \$1,000-1,071

Product Specification

- Displacement: Other
- Motor Type: Piston Motor
- Continuous Torque: 100Nm
- Max Rpm: 2000 RPM
- Port Size: 1/4 Inch
- Pressure Rating: 2000psi
- Shaft Diameter: 30 Mm
- Weight: 50
- Rated Pressure: 210 Bar
- Max Pressure: 300 Bar
- Flow Rate: Proportional To Drive Speed
- Noise Level: Low
- Power/Weight Ratio: High
- Swash Plate Angle: Infinitely Adjustable
- Oil Port: Single Inlet And Four Outlet

Product Description

Kpm Original Construction Machinery Excavator Parts Sk200-8 M5x130 Excavators Swing Motor Assy

M5X130 Swash Plate Plunger Motor

Product Application: Suitable for excavators, drilling rigs, garden machinery and other small travel machinery up to 4 tons.

Product Characteristics

- Rated pressure PN 210 bar, maximum pressure Pmax 300 bar
- Total power control with short control time for energy saving and high efficiency
- Special "single inlet and four outlet" oil port design for optimal small flow rate in multi-loop hydraulic systems
- High-quality ductile iron cylinder body and double alloy port plate for light engine compatibility
- Flexible power adjustment to meet various working condition requirements
- Swash Plate structure for hydrostatic transmission in open loop systems
- Flow rate proportional to drive speed and displacement, infinitely adjustable via swash plate angle
- Excellent oil suction performance with low noise operation
- Compact, lightweight construction with high power/weight ratio

Looking for more?

We offer perfect interchangeable replacements for many world-renowned brands including Rexroth, Eaton, Parker, Kawasaki, Tokimec, Sauer-Danfoss, Komatsu and more.

Frequently Asked Questions

Why choose us?

With more than 20 years of experience in hydraulic parts design and 14 years in manufacturing branded quality piston pumps and motors, we operate a modern production facility with advanced testing equipment and a strict quality management system. We welcome ODM/OEM inquiries with high quality requirements.

Can I customize the product?

Absolutely. Customization services according to your drawings or specifications are our specialty. We have extensive technical expertise and mature production processes in the hydraulic industry.

Can I have free samples?

Typically no, but we may negotiate depending on the product and order requirements.

What's the delivery time?

10-60 days after payment, depending on the specific products and order details.

How to order?

Our standard process: Inquiry → Quotation → Negotiation → Samples → PO/PI → Down payment → Mass production → Quality inspection → Book space → Balance/Delivery → Further cooperation.
