Frequently Asked Questions

Why choose our hydraulic components?

With over 20 years of hydraulic parts design experience and 14 years in manufacturing high-quality piston pumps and motors, we operate as a reputable factory supplier. Our facility includes modern production machinery, advanced testing equipment, and maintains a strict quality management system. We welcome ODM/OEM inquiries for demanding quality requirements.

Can I customize the product?

Absolutely. Customization services based on technical drawings or specific requirements represent our key advantage and differentiate us from standard suppliers. We possess extensive technical expertise and mature production processes within the hydraulic industry.

Can I receive free samples?

Typically, we do not provide free samples, but this is negotiable based on specific products and order volumes.

What is the delivery time?

Delivery ranges from 10 to 60 days after payment confirmation, depending on the specific products and order requirements.

How do I place an order?

Our ordering process follows these steps: Inquiry → Quotation → Negotiation → Samples → Purchase Order/Proforma Invoice → Down Payment → Mass Production → Quality Inspection → Space Booking → Balance Payment/Delivery → Ongoing Support.
